AGENDA REGULAR MEETING OF THE BOARD OF DIRECTORS TUESDAY, April 21, 2015 – 4:30 P.M. DISTRICT BOARD ROOM – 11499 GEIL STREET

In compliance with the Americans with Disabilities Act, if special assistance is needed to participate in the Board meeting, please contact Lidia Santos, Board Secretary during regular business hours at (831) 633-2560. Notification received 48 hours before the meeting will enable the District to make reasonable accommodations.

CALL MEETING TO ORDER

ROLL CALL

PLEDGE OF ALLEGIANCE

PUBLIC COMMENTS – (Limited to three minutes per speaker within the jurisdiction of items not on the agenda. Public will have the opportunity to ask questions or make statements as the Board addresses each agenda item.)

CONSENT CALENDAR:

1. Approval of the March 17, 2015 Regular Board Meeting Minutes – **motion item**

CORRESPONDENCE:

1. None

INFORMATIONAL ITEMS:

1. *AWWA Journal* – The bare facts about fixed amount of water compared with population growth through history
2. *Gov.Ca.gov/news* – Governor Brown Directs first ever statewide mandatory water reductions
3. *The Salinas Californian* – Brown orders steep cuts in state water use
4. *Associated Press* – Gov. seeks drought spending
5. *The Salinas Californian* – Drought to continue in West, forecasters predict
6. *The Salinas Californian* – Growers begin push to secure future water supply
7. *The Monterey County Weekly* – Cal Am proposes selling Salinas Valley water back to Salinas Valley users

AGENDA, Page 2
April 21, 2015
CASTROVILLE COMMUNITY SERVICES DISTRICT

PRESENTATION:

1. None

UNFINISHED BUSINESS:

1. Update on well levels – Eric Tynan, General Manager
2. Update on tax measure for North County Recreation and Park District (NCRPD) – Eric Tynan, General Manager
3. Update on the local groundwater sustainably agency (GSA) representation and formation – Eric Tynan
4. Update on Prop 84: Well 5 (formerly Well 2B) Arsenic Treatment project – Eric Tynan, General Manager

NEW BUSINESS:

1. Approve Design-Build advertising for arsenic treatment of Well 2B/5 – **motion item**
2. Resolution No.15-1 Declaring a Level 2 Water Supply Shortage (21% Reduction) – **motion item**
3. Consider raising water rates by 10% annually for the next five years – **motion item**
4. Castroville CSD to consider taking Cal Am's in-basin water – Eric Tynan, General Manager
5. Approve Noland Hamerly Etienne & Hoss Attorneys at Law proposed billing rate of \$250 per hour effective July 1, 2015, presently billing rate of \$240 per hour rate – **motion item**
6. Resolution No.15-2 Certifying Compliance with State Law with Respect to the Levying of General and Special Taxes, Assessments, and Property-Related Fees and Charges – **motion item**
7. Resolution No.15-3 Ordering an Election, Requesting County Elections to Conduct the Election, and Requesting Consolidation of the Election – **motion item**
8. Approve replacing three manholes: #27, #28 and #29 along Highway 1 in Moss Landing, not to exceed \$22K by West Valley Construction – **motion item**

BOARD OF DIRECTORS COMMUNICATION: When needed, this time is reserved for the Board of Directors to communicate activity, educational classes, and/or Committee reports.

1. Update on MRWPCA board meeting – Ron Stefani, Director
2. Update on Oversight board meeting – Ron Stefani, Director

GENERAL OPERATIONS:

1. **General Manager's Report** – Compliance Update, Current Projects Update, Seminars Update, Staff Update, Suggestive Projects Discussions
2. **Operation's Report**
 - a) Water – Pumpage & Usage Update, Water Testing Update, Current Installation
 - b) Status Update, Current Contractor Work Update, Maintenance/Repair Update, Customer Service Update, Safety Issues
 - c) Sewer & Storm Drain – Jetting, Current Installation Status Update, Current Contractor Work Update, Maintenance/Repair Update, Customer Service Update, Safety Issues

LIST OF CHECKS – March 2015 – motion item

ITEMS FOR NEXT MONTHS AGENDA: Tuesday, May 19, 2015 at 4:30 p.m.

CLOSE:

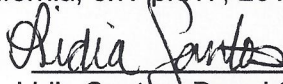

Adjournment to the next regular scheduled Board Meeting – **motion item**

All public records relating to an agenda item on this agenda are available for public inspection at the time the record is distributed to all, or a majority of all, members of the Board. Such records shall be available at the District office located at 11499 Geil Street, Castroville, California.

Certification of Posting

I certify that on April 17, 2015, I posted a copy of the foregoing agenda near the regular meeting place of the Board of Directors of the Castroville Community Services District, said time being at least 72 hours in advance of the meeting of the Board of Directors (Government Code Section 54954.2).

Executed at Castroville, California, on April 17, 2015.

Lidia Santos, Board Secretary

THE OFFICIAL MINUTES OF THE REGULAR BOARD MEETING OF
CASTROVILLE COMMUNITY SERVICES DISTRICT
March 17, 2015

President David Lewis called the meeting to order at 4:30 p.m.

ROLL CALL:

Directors Present: President David Lewis, Vice President Ron Stefani, Director Adriana Melgoza, Director Silvestre Montejano and Director Betty MacMillan

Absent: None

General Manager: Eric Tynan

Secretary to the Board: Lidia Santos

Staff Present: None

Guest: Lloyd Lowrey, Paul Greenway, and Grant Leonard

PLEDGE OF ALLEGIANCE

Vice President Ron Stefani led the Pledge of Allegiance.

DRAFT

PUBLIC COMMENTS

1. None.

CONSENT CALENDAR

1. A motion was made by Betty MacMillan and seconded by Ron Stefani to approve the minutes of the February 17, 2015 Regular Board Meeting. The motion carried by the following vote:

AYES:	5	Directors:	Stefani, Melgoza, Montejano, MacMillan and Lewis
NOES:	0	Directors:	None
ABSENT/NOT PARTICIPATING:	0	Directors:	None

Consent Calendar accepted as presented

CORRESPONDENCE:

1. 2015 first quarter update from Brent R. Constantz, Managing Member and CEO of DeepWater Desal LLC (DWD) on their progress towards developing the Monterey Bay Regional Water Project, a desalination plant and datacenter complex in Moss Landing, California.

DWD has entered into an MOI with Castroville CSD for water offtake not an MOU as stated in the letter by DWD. Correspondence accepted with this correction.

UNFINISHED BUSINESS:

1. Update on well levels – General Manager Eric Tynan informed the Board on the current static well levels. Well #2 is currently at 15.6 feet below sea level, which is 10 feet lower from this time last year. Well #3 is at 15.1 below sea level, which is 7 feet lower from this time last year. Well #4 is at 36.9 feet below sea level, which is 21 feet lower from this time last year. There has not been much rain this winter and agriculture companies have started irrigating their fields again. General Manager Eric Tynan will continue to update the Board on the levels of the wells at the next board meeting.
2. Update on mural project for Castroville walkway over Highway 156 – General Manager Eric Tynan informed the Board that there have been no further updates regarding this project. Caltrans' requirements of traffic, air and lead studies have stalled this project. Until, additional information is received that can get this project moving forward, it will be removed from the agenda starting next month. The Board agreed with the General Manager Eric Tynan to remove this item from the agenda for now.
3. Update on Castroville overhead sign - General Manager Eric Tynan reported to the Board that there have been no further updates regarding this project as well. Caltrans is requiring that an engineer certify the structural integrity of the sign and is also requiring that the sign be brought up to Caltrans standards. This project is stalled as well due to Caltrans requirements. Until, additional information is received that can get this project moving forward, it will be removed from the agenda starting next month. The Board agreed with the General Manager Eric Tynan to remove this item from the agenda for now.
4. Update on tax measure for North Country Recreation and Park District (NCRPD) – General Manager Eric Tynan informed the board that Director Adriana Melgoza, NCRPD General Manager Judy Burditt, NCRPD Director Grant Leonard, the facilitator and he met to discuss the tax measure for NCRPD. They are trying to gather a core group to get this tax measure moving forward. Also, discussed was getting more community members involved and effective community outreach. General Manager Eric Tynan stated that he had been misinformed when he mentioned that in 1983 was when NCRPD last had a tax measure; when in fact, they have never had a tax measure.
5. Review and approve sending a copy of the draft letter from Castroville CSD to Monterey County Water Resources Agency (MCWRA) regarding local groundwater sustainability agency (GSA) representation – General Manager Eric Tynan reported to the Board that enclosed with the board packet is a copy of the draft letter for their review and approval(see pages 21-22 of board packet.) District Legal Counsel Lloyd Lowrey assisted with this letter. General Manager Eric Tynan stated that the MCWRA Board of Directors are mostly aligned with the agriculture industry and may not have the best interest of urban water users. Other urban water agencies have voiced the same concern. The City of Salinas, Marina Coast Water District and Castroville CSD will be meeting on March 23, 2015 at 10 a.m. at Salinas City Hall to discuss GSA representation. After some discussion, a motion is made by Ron Stefani and seconded by Adriana Melgoza to send a certified copy of the letter from Castroville CSD to Monterey County Water Resources Agency (MCWRA) addressing the local groundwater sustainability (GSA) representation. The motion carried by the following vote:

AYES:	5	Directors:	Stefani, Melgoza, Montejano, MacMillan and Lewis
NOES:	0	Directors:	None
ABSENT/NOT PARTICIPATING:	0	Directors:	None

6. Update on Prop 84: Well 5 (formerly Well 2B) Arsenic Treatment project – General Manager Eric Tynan informed the Board that Rich Guillen, grant administrator for Castroville CSD regarding Well 5 (formerly Well 2B) has submitted the third progress report to the Department of Water Resources (DWR). He anticipates the District should be receiving payment soon from DWR for the grant monies awarded to the District for this well. In addition, District Legal Counsel Lloyd Lowrey made the amendments to the grant contract pending approval for design-build by the City of Soledad and DWR. The amendment addressing design-build to the contract was just submitted to them for their approval in writing and the District is waiting for their response.

NEW BUSINESS:

1. Consider approval of MNS Engineers proposal for engineering services for procurement, contracting and construction administration of a Design-Build Entity of the Well 5 Arsenic Removal Treatment System - General Manager Eric Tynan informed the Board that on page 22 of the board packet is the proposal submitted by MNS Engineers. If the project was to commence now, it would not be completed until November 2015. The District is waiting for the Department of Water Resources (DWR) to approve the amendment to the contract, which permits design-build. District Legal Counsel Lloyd Lowrey stated that the Board should wait for DWR to approve the amendment to the contract before executing the proposal from MNS Engineers as design-build for \$150K. General Manager Eric Tynan requested for the Board to approve only the procurement and contracting portion of the proposal for an additional \$40K since he has already previously authorized \$10K for engineer services with MNS Engineers and if needed the procurement and contracting portion can be modified to design-bid-build if necessary. Well levels are dropping and it is important to move forward with this project for the reason that California is in its fourth year of a drought. Engineer services with MNS Engineers for procurement and contracting for the Castroville CSD Well 5 arsenic removal treatment system will total \$50K. After some discussion, a motion is made by Betty MacMillan and seconded by Silvestre Montejano to approve an additional \$40K since General Manager Eric Tynan has already previously authorized \$10K with MNS Engineers for the scope of work of procurement and contracting engineer services of Well 5 (formerly Well 2B) arsenic removal treatment system. The motion carried by the following vote:

AYES:	5	Directors:	Stefani, Melgoza, Montejano, MacMillan and Lewis
NOES:	0	Directors:	None
ABSENT/NOT PARTICIPATING:	0	Directors:	None

2. Approve attendance of General Manager Eric Tynan to the California Water Environment Association (CWEA) Annual Conference, April 29-May 1, 2015, San Diego, CA – General Manager Eric Tynan requested the Board approve sending him to the CWEA Annual Conference. After some discussion, a motion is made by Betty MacMillan and seconded by Ron Stefani to approve sending General Manager Eric Tynan to the CWEA Annual Conference, April 29-May 1, 2015, San Diego, CA. The motion carried by the following vote:

AYES:	5	Directors:	Stefani, Melgoza, Montejano, MacMillan and Lewis
NOES:	0	Directors:	None
ABSENT/NOT PARTICIPATING:	0	Directors:	None

BOARD OF DIRECTORS COMMUNICATION: When needed, this time is reserved for the Board of Directors to communicate activity, educational classes, and/or Committee reports.

1. Update on MRWPCA board meeting – Director Ron Stefani reported that MRWPCA has three candidates for the MRWPCA general manager position and should select a candidate soon. The first round negotiations with Cal Am regarding the water purchase agreement portion of the contract for the Ground Water Replenishment project did not go well. This is the most important part of the agreement because you have to have a buyer that agrees to pay for the water and once you have a buyer that does agree to pay for the water, then financing opens up.
2. Update on Oversight board meeting – Director Ron Stefani reiterated that all the Redevelopment Oversight boards in Monterey County will be combined into one board by January 2017. Supervisor Philips is now a new member of the Redevelopment Oversight board.

GENERAL OPERATIONS

1. General Manager's Report – Compliance update, current projects update, meetings/seminars update, staff update, suggestive projects discussions

2. Operation's Report
 - a) Water - Pumpage & Usage Update, Water Testing Update, New Service Installation Status Update, Current Contractor Work Update, Maintenance/Repair Update
 - b) Sewer & Storm Drain – Jetting, Connections, Maintenance/Repair Update
3. Customer /Billing Reports – Water Sales, Water Usage, A/R Update, Customer Service Update
4. Financial Reports – Treasures L.A.I.F. Report, Internal Report, Administration Update

General Operations Reports were accepted as presented

CHECK LIST – February 2015. A motion was made by Adriana Melgoza and seconded by Silvestre Montejano to pay all bills presented. The motion carried by the following vote:

AYES:	5	Directors:	Stefani, Melgoza, Montejano, MacMillan and Lewis
NOES:	0	Directors:	None
ABSENT/NOT			
PARTICIPATING:	0	Directors:	None

CLOSE:

There being no further business, a motion was made by Adriana Melgoza and seconded by Betty MacMillan to adjourn to the next scheduled Board meeting; the motion carried by the following vote:

AYES:	5	Directors:	Stefani, Melgoza, Montejano, MacMillan and Lewis
NOES:	0	Directors:	None
ABSENT/NOT			
PARTICIPATING:	0	Directors:	None

The meeting adjourned at 5:58 p.m. until the next scheduled meeting.

Respectfully submitted by,

Approved by,

Lidia Santos
Secretary to the Board

David Lewis
President

FIGURE 1 The bare facts about the fixed amount of water compared with population growth through history

- The supply of available fresh water on Earth is essentially fixed.
- The Earth's population and demand for fresh-water is rapidly growing.
- It's about that simple.
- Water use has been growing at more than twice the rate of population increase over the past century.

GOVERNOR BROWN DIRECTS FIRST EVER STATEWIDE MANDATORY WATER REDUCTIONS

4-1-2015

SACRAMENTO - Following the lowest snowpack ever recorded and with no end to the drought in sight, Governor Edmund G. Brown Jr. today announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies that will make California more drought resilient.

"Today we are standing on dry grass where there should be five feet of snow. This historic drought demands unprecedented action," said Governor Brown. "Therefore, I'm issuing an executive order mandating substantial water reductions across our state. As Californians, we must pull together and save water in every way possible."

High resolution photos of previous snow surveys are available [here](#).

For more than two years, the state's experts have been managing water resources to ensure that the state survives this drought and is better prepared for the next one. Last year, the Governor proclaimed a drought state of emergency. The state has taken steps to make sure that water is available for human health and safety, growing food, fighting fires and protecting fish and wildlife. Millions have been spent helping thousands of California families most impacted by the drought pay their bills, put food on their tables and have water to drink.

The following is a summary of the executive order issued by the Governor today.

Save Water

For the first time in state history, the Governor has directed the State Water Resources Control Board to implement mandatory water reductions in cities and towns across California to reduce water usage by 25 percent. This savings amounts to approximately 1.5 million acre-feet of water over the next nine months, or nearly as much as is currently in Lake Oroville.

To save more water now, the order will also:

- Replace 50 million square feet of lawns throughout the state with drought tolerant landscaping in partnership with local governments;
- Direct the creation of a temporary, statewide consumer rebate program to replace old appliances with more water and energy efficient models;
- Require campuses, golf courses, cemeteries and other large landscapes to make significant cuts in water use; and
- Prohibit new homes and developments from irrigating with potable water unless water-efficient drip irrigation systems are used, and ban watering of ornamental grass on public street medians.

Increase Enforcement

The Governor's order calls on local water agencies to adjust their rate structures to implement conservation pricing, recognized as an effective way to realize water reductions and discourage water waste.

Agricultural water users - which have borne much of the brunt of the drought to date, with hundreds of thousands of fallowed acres, significantly reduced water allocations and thousands of farmworkers laid off - will be required to report more water use information to state regulators, increasing the state's ability to enforce against illegal diversions and waste and unreasonable use of water under today's order. Additionally, the Governor's action strengthens standards for Agricultural Water Management Plans submitted by large agriculture water districts and requires small agriculture water districts to develop similar plans. These plans will help ensure that agricultural communities are prepared in case the drought extends into 2016.

Additional actions required by the order include:

- Taking action against water agencies in depleted groundwater basins that have not shared data on their groundwater supplies with the state;
- Updating standards for toilets and faucets and outdoor landscaping in residential communities and taking action against communities that ignore these standards; and

-Making permanent monthly reporting of water usage, conservation and enforcement actions by local water suppliers.

Streamline Government Response

The order:

- Prioritizes state review and decision-making of water infrastructure projects and requires state agencies to report to the Governor's Office on any application pending for more than 90 days.
- Streamlines permitting and review of emergency drought salinity barriers - necessary to keep freshwater supplies in upstream reservoirs for human use and habitat protection for endangered and threatened species;
- Simplifies the review and approval process for voluntary water transfers and emergency drinking water projects; and
- Directs state departments to provide temporary relocation assistance to families who need to move from homes where domestic wells have run dry to housing with running water.

Invest in New Technologies

The order helps make California more drought resilient by:

- Incentivizing promising new technology that will make California more water efficient through a new program administered by the California Energy Commission.

Brown orders steep cuts in state water use

Cities, towns to cut usage by 25 percent compared with 2013 levels

By **Dennis L. Taylor**
dtaylor@thecalifornian.com
and **Fenit Nirappil**
Associated Press

While California Gov. Jerry Brown's order Wednesday to impose mandatory water restrictions for the first time in history will have dramatic effects on consumers, it's pretty much business as usual for agriculture in California.

Standing in dry, brown grass at a site near Echo Summit in the Sierra Nevada that he said normally would be snow-covered this time of year, Brown announced he had signed an executive order requiring the State Water Resources Control Board to implement measures in cities and towns to cut water usage by 25 percent compared with 2013 levels.

Norm Groot, executive director of the Monterey County Farm Bureau,

said there will be an increase in mandated irrigation data. The cost to growers will be in the labor needed to input well data, he said. It could also make growers who are not metering their wells speed up their timetable to install meters.

Mike Jones, general manager of California Water Service Co. in Salinas, was in a training seminar in San

See **WATER**, Page 5A

Water

Continued from Page 1A

Jose on Wednesday and said he had not had the opportunity to review Brown's executive order.

Still, agriculture is coming out relatively unscathed, and that fact ranked at least one water-focused nonprofit group.

"It is disappointing that Governor Brown's executive order to reduce California water use does not address the state's most egregious corporate water abuses," said Adam Scow, director of California Food & Water Watch, in an issued statement. "In the midst of a severe drought, the Governor continues to allow corporate farms and oil interests to deplete and pollute our precious groundwater resources that are crucial for saving water."

Scow is calling on the governor to direct the state Water Board to place a moratorium on irrigating crop "on toxic and dry soils" on the west side of the San Joaquin Valley.

"In the two-year period covering 2014-2015, the Westlands Water District is on pace to pump over 1 million acre feet of groundwater - more water than Los Angeles, San Diego, and San Francisco combined use in one year," Scow said.

The governor's move will affect residents, busi-

nesses, farmers and other users.

"We're in a historic drought and that demands unprecedented action," Brown said at the news conference at Echo Summit in the Sierra Nevada, where state water officials found no snow on the ground for their manual survey of the snowpack. "We have to pull together and save water in every way we can."

Brown's order also will require campuses, golf courses, cemeteries and other large landscapes to significantly cut water use; direct local governments to replace 50 million square feet of lawns throughout the state with drought-tolerant landscaping; and create a temporary rebate program for consumers who replace old water-sucking appliances with more efficient ones.

"We're in a new era; the idea of your nice little green grass getting water every day, that's going to be a thing of the past," Brown said.

The order calls on local water agencies to implement tiered water pricing that charges higher rates as more water is used and requires agricultural users to report more water use information to state regulators.

The order also prohibits its new homes and developments from using drinkable water for irrigation if the structures

lack water-efficient drip systems. In addition, the watering of decorative grasses on public street medians is banned.

The snowpack has been in decline all year, with electronic measurements in March showing the statewide snow water equivalent at 19 percent of the historical average for that date.

Snow supplies about a third of the state's water, and a higher snowpack translates to more water in California reservoirs to meet demand in summer and fall.

There was no snow at the site of Wednesday's survey near Echo Summit, about 90 miles east of Sacramento.

"It is such an unprecedented lack of snow, it is way, way below records," said Frank Gehrke, chief of snow surveys for the California Department of Water Resources.

Officials say the snowpack is far below the historic lows of 1977 and 2014, when it was 25 percent of normal on April 1 — the time when the snowpack is generally at its peak.

Brown previously declared a drought emergency and stressed the need for sustained water conservation. But he has come under increasing pressure to be more aggressive as the state enters its fourth year of drought.

GOV. SEEKS DROUGHT SPENDING

Proposal would speed up \$1B in water funds

Fenit Nirappil | Associated Press

SACRAMENTO — As California copes with a fourth straight year of drought, Gov. Jerry Brown and legislative leaders on Thursday proposed legislation to accelerate more than \$1 billion in water spending to averted residents to do their part to conserve.

Winter is ending in California without enough snow and rain to replenish reservoirs, offering little relief from the worst drought in a generation.

The proposed legislation includes \$128 million to ease dire water shortages in some communities; the financial struggles of unemployed farm workers in the Central Valley; and dry conditions that contribute to wildfires.

The rest of the funding comes from voter-approved bonds — including a \$7.5 billion water measure passed in November — to speed up water projects that can help communities prepare for future dry years.

“We need to get the money out the door now for shovel-ready projects and existing water programs that only need funding to get started,” Senate President Pro Tem Kevin de Leon said. “No delay. No red tape.”

Nearly two-thirds of the funds in the package would go to improve flood control structures by using leftover money from a 2006 voter-approved bond measure.

Lawmakers said climate change is contributing to sudden floods — even in dry years — and flood protection protects drinking water supplies.

“We maximize the water we do have if we can direct the flood waters in a way that’s safe for communi-

Spending

Continued from Page 1A

ties,” said Assemblyman Marc Levine, a San Rafael Democrat who chairs a water committee.

More immediate funding includes \$20 million for additional emergency drinking water for communities with dry wells; \$24 million for food banks; and \$16 million to help fish and animals threatened by vanishing streams and rivers.

Unemployment in the agricultural Central Valley has reached 14 percent and domestic wells are running dry in a handful of parched communities such as East Porterville, where the state has already spent \$500,000 to provide bottled water for 290 families.

Brown said the drought has highlighted fundamental questions about how the state uses water and will require Californians to adopt innovative solutions.

“Growing a walnut or an almond takes water. Having a new house with a bunch of toilets and showers takes water,” Brown said. “So how do we balance use and efficiency with the kind of life that people want in California?”

The measures are expected to come for a vote within a week

and will need majority approval from the state Legislature which is controlled by Democrats.

Republican legislative leaders joined Brown at a news conference supporting the bills Thursday but were not involved in crafting the proposals.

Such spending is normally approved as part of budget negotiations that last through June, but lawmakers said their action will help kick-start the projects sooner.

The plan is labeled as emergency legislation, but much of the funding has been available to the state for years. It could take more than year for some of the projects to produce a noticeable increase in water supplies.

“This is a Band-Aid,” said Assembly Minority Leader Kristin Olsen, a Modesto-area Republican. “This is a temporary small step toward fixing a monumental problem.”

The water in the Sierra Nevada snowpack — California’s largest water source — is far below normal. Some drought observers fear it may never return to normal, requiring a fundamental change to California water policy.

Continuing dry conditions drove state water regulators to ramp up mandatory water restrictions this week that prevent Californians from watering their lawns daily and require

ramp up action if the drought gets worse.

“Don’t have any doubts. We are going to increasingly control the use of water to the point where you have to get a lot more efficient, it’s going to be expensive and everyone has got to do

their part, and they will,” Brown said.

The water spending legislation came a year after Brown signed a \$687 million drought-relief package, most of which went to accelerate water infrastructure projects.

Drought to continue in West, forecasters predict

By Bill Theobald
USA TODAY

WASHINGTON — The spring weather outlook for the west issued Thursday by federal forecasters has a familiar ring to it: continuing drought conditions leading to greater wildfire risk.

The National Oceanic and Atmospheric Administration forecast predicts drought will persist or worsen in California, Nevada, Arizona, Oregon, and western Colorado through June.

"Periods of record warmth in the west and not enough precipitation during the rainy season cut short drought relief in California this winter, and prospects for above-average temperatures for this spring may make

the situation worse," said Jon Gottschalck, with NOAA's Climate Prediction Center.

Arizona, California, Nevada, Utah and Washington had their warmest winters on record, Gottschalck said.

Above-average temperatures are expected to continue this spring in the far west and northern Rockies. Above-average precipitation is predicted for parts of the Southwest and Southern and central Rockies.

The above-average precipitation predicted for Colorado over the next three months could reduce drought conditions in the southeast part of the state. The moisture could ease the fire season, Gottschalck said, but also could increase undergrowth that

worsens the situation. Most of the precipitation that fell in California was rain instead of snow, leaving record-low snow pack. That means less runoff to replenish reservoirs and lakes.

The San Joaquin Valley has received two years worth of precipitation in the last four years as the drought enters its fourth year, Gottschalck said.

"If the drought persists as predicted in the far west it will likely result in an early and active wildfire season, continued stress on crops due to low reservoir levels and an expansion of water conservation measures," he said.

Brad Rippey, a meteorologist with the Agriculture Department, said he expects a further

reduction in the planting of field crops — such as wheat, corn and cotton — in California this year because of low water supplies. Last year, there was an 11 percent reduction in field crops planted, compared to 2013.

Rippey said statewide reservoir levels are just slightly higher than they were at this time last year.

"You put it all together and I think we are in about the same boat," Rippey said.

Thursday's NOAA spring forecast is the most recent in a series of grim reports on the drought.

Last month, scientists from NASA and Columbia and Cornell universities published a study predicting a better than 80 per-

cent chance of a "megadrought" — one lasting at least 35 years — hitting the Southwest and central Great Plains in the second half of this century.

On Tuesday, the Pacific Institute, a California-based think tank, reported that California's ratepayers spent \$1.4 billion more for electricity between October 2011 and October 2014 because the drought forced a shift from hydropower to natural gas.

In addition, burning more natural gas led to an 8 percent increase in emissions of carbon dioxide and other pollutants from California power plants, the report found.

Growers begin push to secure future water supply

It's push and push back time. With the first phases of the Groundwater Sustainability Act taking shape, growers realize that this legislation will affect them in a big way. And by big, I don't mean good.

The GSA mandates that all water basins in the state become sustainable by 2042. By sustainable the state means that an equal amount of recharge is hitting underground aquifers as is being pumped out. The GSA requires wells be monitored and affords the power to shut them down if the basin is not moving toward sustainability.

This has growers shaking in their rubber boots. Now, it's no one's business how much a farmer pumps. The wells are on private land and they have the water rights to pump as much as they want out of aquifers underlying their land. It's been that

acrimonious court battle. But let's not get too far ahead of ourselves. Already state agencies such as the Water Quality Control Board and the Department of Water Resources, along with sister federal agencies, are implementing rules governing the amount of water farmers in the Central Valley receive. Farmers, meanwhile, are organizing a push-back of their own.

Last week growers — represented by Farm Bureau leaders — from throughout the state made the rounds in Sacramento, visiting Assembly members and state senators. They pleaded their case in hopes elected officials will find it in their hearts to keep the taps on. Much of the lobbying has been geared toward Proposition 1, the Water Bond. A component of the bond earmarks \$2.7 billion for new

dams, reservoirs and other storage systems. Growers want to make sure new projects benefit agriculture.

The myriad water uses — urban drinking water, recreation, environmental sustainability and agriculture — are all vying for the Legislature's attention. But there is only so much water to go around. In one sense you can think of water in this state as a 5-pound sack of potatoes with 10 pounds of hands digging for them. Supply in finite; demand in infinite.

Every interest group, including growers, have valid arguments for why they should receive the lion's share of the available water. One thing growers do not want is an equal, across-the-board cut. In the Salinas Valley farmers use 90 percent of the groundwater; urban users 10 percent. If supplies to

urban users get cut in half, lawns will go away and motorists will drive around in dirty cars.

If supplies to growers gets cut in half, some farms will go away, unemployment will jump and some of the peripheral businesses like tractor or fertilizer sales will shutter their doors. Which is why farmers are taking this seriously.

"If we are going to change what is happening in Sacramento and Washington, D.C., we have to have a presence," said California Farm Bureau President Paul Wenger at this year's CFBF Leaders Conference.

It appears his words were heeded.

way since the Central Coast was part of Spain and then Mexico. The laws governing water rights were established before California was part of the United States.

You can bet your bottom dollar that water rights that date back to when vaqueros were roping cattle in Monterey County suddenly challenged by a new law in 2014 will result in a vigorous, long, expensive and

Cal Am proposes selling Salinas Valley water back to Salinas Valley users.

SARA RUBIN

The property where Cal Am hopes to make its desal dreams come true

Posted: Thursday, March 19, 2015 5:25 pm

• by Sara Rubin

Things are going to get interesting Friday morning at 11am, when 16 parties call in to a conference call at the invitation of California American Water.

The issue at hand: Cal Am's potential plans to sell Salinas Valley groundwater back to Salinas Valley users. Which means they plan to take Salinas Valley groundwater in the first place—then sell it back to Salinas Valley users, making it cheaper for Peninsula customers.

Selling the water "would benefit California American Water customers by lowering delivered water costs," according to a draft motion prepared by Cal Am.

Here's the back story: Cal Am, the water utility for the Monterey Peninsula, has proposed a multi-part water project to replace the Carmel River water it currently pumps to Peninsula users, in order to comply with a state cease-and-desist order that kicks in at the end of 2016.

One feature of that plan is a desalination plant in North Marina, proposed for the Cemex sand mining property (visible from Highway 1 for its often-smoking chimney).

Cal Am proposes sucking up brackish water from underground, but there's been a lot of concern about exactly whose water that is: Is it seawater, or does it technically fall within the Salinas Valley Groundwater Basin?

If it's the latter, that poses all kinds of problems for Cal Am's plan. The biggest deal? The Salinas Valley basin is over-pumped, meaning farmers there won't easily part with a single drop.

It's also illegal, based on the Monterey County Water Resources Agency Act of 1995 to export Salinas Valley groundwater from the basin.

That's why Cal Am is exploring ways to return any Salinas Valley water to the Salinas Valley.

On March 17, Cal Am circulated a draft motion it intends to submit to the California Public Utilities Commission, sharing the draft with 16 parties to a 2012 settlement agreement. Those

parties will weigh in tomorrow on the draft motion; a copy of that motion was obtained by the *Weekly* and is attached below.

Cal Am's draft motion to the PUC regarding Salinas Valley waters.

Cal Am's draft motion to the PUC requesting the right to submit testimony on possible alternatives to return Salinas Valley waters taken up through its proposed desalination plant to the Salinas Valley, including by selling it.

What Cal Am is asking for here isn't technically a proposal—it's just asking for permission from the PUC to file testimony by Nov. 15, as part of a much larger filing, over the question of what to do with any Salinas Valley water that gets taken up into its desal process.

But the motion lays out these possibilities:

- 1) Return the water to the Castroville Seawater Intrusion Project, which irrigates 12,000 acres of Castroville-area farmland with recycled wastewater;
- 2) Inject the water back into the ground through a well located on the site of the proposed desal plant;
- 3) Distribute it to other Salinas Valley basin users, which could include urban users like Marina Coast Water District;
- 4) Delivering the water to the Monterey Regional Waste Management District.

As part of its future testimony, Cal Am would also lay out rates for selling the water to Castroville growers or other Salinas Valley users.

Urban users "may be desiring to pay more than the going [agricultural user] rates, which would benefit Cal Am customers by lowering delivered water costs," according to the draft motion.

All of these possibilities presume that Cal Am's slant wells will take up some Salinas Valley groundwater, though the scientific jury is still out on that question.

A team of hydrologists will examine results from a test well that's currently in operation to determine whose water, exactly, is going to go into the desal plant.

The Ag Land Trust sued the Coastal Commission for approving that test well, on the grounds that the well might be pumping from water under their property, which the land trust then technically holds the rights to.

"If they're proposing to take water out of the Salinas Valley, that's very disappointing and directly contrary to the law of groundwater rights in California," says Ag Land Trust board member Marc Del Piero.

"The is the essence of why Ag Land Trust is suing over the slant well permits."

Norm Groot, director of the Monterey County Farm Bureau, one of the parties to the settlement agreement (and which has an interest in protecting farmers' water rights in the area in question), says he will wait and see what the test well reveals.

"The test well is going to really be the proof in the pudding," Groot says. "This is all premature because we don't know what's coming up out of the test well yet."

Groot declined to comment on the specific proposals in the draft motion, pending tomorrow's conference call.

Cal Am spokesperson Catherine Stedman writes by email, "We think it's in the best interest of our customers to have several options for the return water.

"We would like for the PUC to consider rates for [selling the water]. Any revenue gathered through these means would help to offset the project costs for our customers."

David Chardavoyne, general manager of the Monterey County Water Resources Agency, one of the settlement parties, says he's not surprised that Cal Am is exploring ways to return Salinas Valley water, even before the test well results come back.

**CASTROVILLE COMMUNITY
SERVICES DISTRICT**

From the desk of
Eric Tynan – General Manager
Phone (831) 633-2560

TO: Castroville CSD Board of Directors

DATE: April 17, 2015

RE: Design-Build Advertising for Arsenic Treatment of Well 2B/5

RECOMMENDATION:

- a. Receive update from General Manager on status of proposed amendment to State of California DWR for inclusion of Design-Build procurement option.
- b. Adopt the Prequalification Questionnaire, Technical Proposal Scoring Criteria, General Conditions and Sample Contract Agreement for the Arsenic Removal Treatment System – Well No. 2B/5 – Castroville, California, Project Number: 15-001-WA
- c. Authorize the General Manager to advertise the "Prequalification of Prospective Proposers" in the Monterey County Weekly.

SUMMARY:

Adoption of the Prequalification Questionnaire, Technical Proposal Scoring Criteria, General Conditions and Sample Contract Agreement will authorize the General Manager to proceed with advertising of Arsenic Removal Treatment System – Well No. 2B/5 – Castroville, California, Project Number: 15-001-WA.

The Qualifications Questionnaires will be due on May 1, 2015 at 3 p.m. at the Castroville Community Service District, 11499 Geil Street, Castroville, California 95012.

The next action will consist of soliciting proposals from qualified Design-Build entities for the design, supply and installation of a complete arsenic removal treatment system capable of producing no less than 700 gallon per minute of treated water that meets the USEPA's Arsenic Rule MCL of less than 10 parts per billion for total arsenic. The project has been determined to be categorically exempt from the California Environmental Quality Act (CEQA).

At the March 17, 2015 board meeting, the Board approved a proposal for engineering services to prepare procurement documents for Design-Build entities. Contracting documents have been prepared and are now ready for the adoption and advertising to Design-Build entities.

Castroville CSD staff have been concerned about continuing drought conditions affecting fresh ground water levels and have begun reviewing options to expedite delivery of the Arsenic Treatment Project for Well 2B/5. Well 2B/5 pulls water from a deeper aquifer than the other three wells owned and operated by the District and offers a reliable source of water at reasonable cost. Design-Build offers the advantage over traditional method for public works project referred to as Design-Bid-Build contracts and is expected to save at least six months of time. The District submitted an amendment to the State of California for approval of the revised procurement methodology and has received confirmation from staff at the State that the Design-Build procurement method will be processed for approval.

State staff have reassured District staff the processing of the amendment is routine and will not be a problem. Rather than delays the Design-Build advertising for the State of California to process the amendment, in light of the worsening drought and dropping elevations of well levels, CSD staff recommends advertising the project.

FINANCING:

The estimated design-builder cost of the Arsenic Removal Treatment System – Well No. 2B/5 is \$700,000. However, there are uncertainties such as future pump tests at the well which could affect the pricing. The District has received an IRWM grant from the State of California for \$566,000 which will pay for a portion of the construction cost of the project.

CASTROVILLE COMMUNITY SERVICES DISTRICT

TO: Castroville CSD Board of Directors

DATE: April 17, 2015

RE: Declaration of Level 2 Water Supply Shortage (21% Reduction)

RECOMMENDATION:

Adopt Resolution 15-1 to declare a Level 2 Water Supply Shortage (21% Reduction) as adopted in Ordinance 65, "An Emergency Ordinance of the Castroville Community Services District: (1) Permanent Voluntary Water Savings Measures, and (2) Temporary Water Conservations Standards"

SUMMARY:

On March 27, 2015, the State Water Resources Control Board (State Water Board) readopted emergency drought regulations, including a requirement for action by each distributor of a public water supply that is not an urban water supplier to implement, within 45 days, mandatory conservation measures intended to achieve a 20% reduction in water consumption by the persons it serves relative to the amount consumed in 2013. Castroville CSD is subject to this requirement. The State Water Board has authority to enforce the emergency drought regulations and failure to comply can result in fines to a distributor of up to \$10,000 a day. On April 1, 2015, Governor Brown issued Executive Order B-29-15 and ordered the State Water Board to impose restrictions to achieve a statewide 21% reduction in potable urban water usage through February 28, 2016, as compared to the amount used in 2013. The Governor's Order requires that those areas with high per capita use achieve proportionally greater reductions than those with low use. The State Water Board plans to adopt updated emergency drought regulations implementing the Governor's Order on May 5 or 6.

On September 16, 2014 the Castroville CSD Board of Directors enacted Ordinance 65, adopting the District's Drought Contingency Plan, which has three levels of drought response. To meet the requirements of the Governor's Order and the State Water Board's emergency drought regulations the District should go to Level 2 of the Drought Contingency Plan and work diligently to reduce water use where possible.

- Currently, District wells are 30 feet below sea level, a level not seen until June of 2014
- Conservation measures could significantly reduce District water revenue
- Currently the District per capita usage is at 55 gallons per day per person, it will be hard to conserve below this mark.
- District unaccounted for water loss is approximately 8.5% versus an industry standard of 12%-15%
- In 2014 CCSD pumped 820 acre-foot of water, which is far below the 1010 acre-foot pumped in 1999, in spite of significant growth.

RESOLUTION NO. 15-1

A RESOLUTION OF THE BOARD OF DIRECTORS OF THE CASTROVILLE COMMUNITY SERVICES DISTRICT DECLARING A LEVEL 2 WATER SUPPLY SHORTAGE (21% REDUCTION)

RESOLVED by the board of Directors ("Board") of the Castroville Community Services District ("District"), at a regular meeting duly called and held on April 21, 2015, at 11499 Geil Street, Castroville, California as follows:

Section 1. Findings. The Board finds as follows:

A. On, January 17, 2014 the Governor of the State of California Proclaimed a State of Emergency due to the current drought conditions. The State Water Resources Water Board thereafter adopted emergency drought Regulations requiring action by each distributor of a public water supply that is not an urban water supplier to implement, within 45 days from March 27, 2015, mandatory conservation measures intended to achieve a 20% reduction in water consumption by the persons it serves relative to the amount consumed in 2013. On April 1, 2015, the Governor issued an Executive Order calling for Statewide mandatory water reductions to achieve statewide reduction of urban water use by 25% from 2013 use. The Governor's Order requires that those areas with high per capita use achieve proportionally greater reductions than those with low use. The State Water Board plans to adopt updated emergency drought regulations implementing the Governor's Order on May 5 or 6, 2015.

B. On September 16, 2014 the District Board adopted Ordinance No. 65, An Emergency Ordinance of the Castroville Community Services District: (1) Permanent Voluntary Water Savings Measures, and (2) Temporary Water Conservations Standards. The District's adopted Water Conservations Standards include 3 levels of water reductions.

C. Under the District's Ordinance No. 65, the Board may declare a Level 2 Water Supply Shortage (21-35% Reduction) due to prolonged drought conditions and a need to focus public attention on water conservation and reduce consumer demand by 21%-35%.

D. Based on information about the District's water supply and recommendations from the District's General Manager, the Governor's Executive Order and the State Water Board's emergency drought regulations, the Board finds that a water supply threatened shortage exists and a 21% consumer demand reduction, as compared to the amount used in 2013, is necessary to make more

efficient use of water and appropriately respond to existing water conditions, requiring the declaration of a Level 2 Water Supply Shortage.

Section 2. Declaration of Level 2 Water Supply Shortage. Pursuant to paragraphs D and F of Section 2.2 of Ordinance 65, the Board of Directors of the Castroville Community Services District does hereby declare a Level 2 Water Supply Shortage . During the existence of the Level 2 Water Supply Shortage condition, customers are required to follow all water conservation measures listed in paragraph D of Section 2.2 of Ordinance 65, with the goal of achieving, through February 28, 2016, a 21% reduction in use as compared to the amount used in 2013. The Board directs the General Manager to take all actions and execute all documents as may be necessary or appropriate to give effect to this resolution.

Section 3. Publication and Posting. Pursuant to paragraph F of Section 2.2, the General Manager is directed to cause a copy of this resolution to be published in a newspaper used for publication of official notices. The General Manager is also directed to cause a copy of this Resolution to be posted in three places within the District accessible to the public and to be posted on the District's website.

Section 4. Effective Date and Termination Date. This resolution will become effective immediately upon adoption. Unless extended or previously repealed by the Board, this resolution and the Level 2 Water Supply Shortage declared hereunder will terminate on February 28, 2016.

PASSED AND ADOPTED ON April 21, 2015 by the Board of Directors of the Castroville Community Services District by the following roll call vote:

Re: Billing Rate

Dear Eric:

Following your receipt of my letter of March 26 and your request that NHEH review the proposed billing rate for NHEH attorneys of \$280.00 per hour effective July 1, 2015, NHEH has reviewed the proposed billing rate and will instead increase the billing rate to \$250.00 per hour effective July 1, 2015. Board confirmation of the new hourly rate would be appropriate to maintain a clear record for audit purposes.

We look forward to continued service with the Castroville Community Services District.

Sincerely,

RESOLUTION NO. 15-2

RESOLUTION CERTIFYING COMPLIANCE WITH STATE LAW WITH RESPECT TO THE LEVYING OF GENERAL AND SPECIAL TAXES, ASSESSMENTS, AND PROPERTY-RELATED FEES AND CHARGES

WHEREAS, the Castroville Community Services District requests that the Monterey County Auditor- Controller enter those general or special taxes, assessments, or property-related Fees or charges identified in Exhibit "A" on the tax roll for collection and distribution by the Monterey County Treasurer-Tax Collector commencing with the property tax bills for fiscal year 2015-16.

NOW, THEREFORE, BE IT RESOLVED as follows:

1. The Castroville Community Services District hereby certifies that it has, without limitation, complied with all legal procedures and requirements necessary for the levying and imposition of the general or special taxes, assessments, or property-related fees or charges identified in Exhibit "A", regardless of whether those procedures and requirements are set forth in the Constitution of the State of California, in State statutes, or in the applicable decisional law of the State of California.

2. The Castroville Community Services District further certifies that, except for the sole negligence or misconduct of the County of Monterey, its officers, employees, and agents, with regards to the handling of the CD or electronic file identified as Exhibit "A", the Castroville Community Services District shall be solely liable and responsible for defending, at its sole expense, cost, and risk, each and every action, suit, or other proceeding brought against the County of Monterey, its officers, employees, and agents for every claim, demand, or challenge to the levying or imposition of the general or special taxes, assessments, or property-related fees or charges identified in Exhibit "A" and that it shall pay or satisfy any judgments rendered against the County of Monterey, its officers, employees, and agents on every such action, suit, or other proceeding, including all claims for refunds and interest thereon, legal fees and court costs, and administrative expenses of the County of Monterey to correct the tax rolls.

Resolution No. 15-3

RESOLUTION ORDERING AN ELECTION, REQUESTING COUNTY ELECTIONS TO CONDUCT THE ELECTION, AND REQUESTING CONSOLIDATION OF THE ELECTION

Castroville Community Services District

WHEREAS, pursuant to Elections Code Section 10002, the governing body of any city or district may by resolution request the Board of Supervisors of the county to permit the county elections official to render specified services to the city or district relating to the conduct of an election; and

WHEREAS, the resolution of the governing body of the city or district shall specify the services requested; and

WHEREAS, pursuant to Elections Code Section 10002, the city or district shall reimburse the county in full for the services performed upon presentation of a bill to the city or district; and

WHEREAS, pursuant to Elections Code Section 10400, whenever two or more elections, including bond elections, of any legislative or congressional district, public district, city, county, or other political subdivision are called to be held on the same day, in the same territory, or in territory that is in part the same, they may be consolidated upon the order of the governing body or bodies or officer or officers calling the elections; and

WHEREAS, pursuant to Elections Code Section 10400, such election for cities and special districts may be either completely or partially consolidated; and

WHEREAS, pursuant to Elections Code Section 10403, whenever an election called by a district, city or other political subdivision for the submission of any question, proposition, or office to be filled is to be consolidated with a statewide election, and the question, proposition, or office to be filled is to appear upon the same ballot as that provided for that statewide election, the district, city or other political subdivision shall, at least 88 days prior to the date of the election, file with the board of supervisors, and a copy with the elections official, a resolution of its governing board requesting the consolidation, and setting forth the exact form of any question, proposition, or office to be voted upon at the election, as it is to appear on the ballot. Upon such request, the Board of Supervisors may order the consolidation; and

WHEREAS, pursuant to Elections Code Section 13307, whenever an election called by a district, city or other political subdivision has offices to be filled, it is required to fix and determine the number of words that a candidate may submit on the candidate's statement to be either 200 or 400 words and to determine if the candidate and or the political subdivision will pay the cost of the statement; and

WHEREAS, the resolution requesting the consolidation shall be adopted and filed at the same time as the adoption of the ordinance, resolution , or order calling the election; and

WHEREAS, various district, county, state and other political subdivision elections may be or have been called to be held on a November 3, 2015;

NOW, THEREFORE, BE IT RESOLVED AND ORDERED THAT THE governing body of the
Castroville Community Services District

hereby orders an election be called and consolidated with any and all elections also called to be held on November 3, 2015 insofar as said elections are to be held in the same territory or in territory that is in part the same as the territory of the Castroville Community Services District requests the Board of Supervisors of the County of Monterey to order such consolidation under Election Code Section 10401 and 10403.

BE IT FURTHER RESOLVED AND ORDERED that said governing body hereby requests the Board of Supervisors to permit the Monterey County Elections Department to provide any and all services necessary for conducting the election and agrees to pay for said services, and

BE IT FURTHER RESOLVED AND ORDERED that the Monterey County Elections Department conduct the election for the following offices on the November 3, 2015 ballot:

<u>SEATS OPEN</u>	<u>OFFICE</u>	<u>TERM</u>	<u>DIST/DIV (if app.)</u>

To the Monterey County Registrar of Voters:

- (1) Notice is hereby given that the elective offices of the district/city to be elected
CHECK ONE: at large or
 by division
at the general election scheduled for November 3, 2015 are as follows:

District/Ward (if applicable)	INCUMBENT'S NAME	2YR TERM OR 4YR TERM
	Ron Stefani	4 YR Term
	David Lewis	4 YR Term
	Betty MacMillan	4 YR Term

SPECIAL DISTRICTS: No election will be held if there is an insufficient number of nominees.

- (2) List the qualifications of a nominee of an elective officer in your district/city (i.e. a registered voter in the district/city, homeowner in district):
- Must be a registered voter
 - Primary residence must be within boundaries of the district
 - Must be willing to complete a financial disclosure statement as required by the Fair Political Practices Commission

(3) The Candidate's Statement of Qualifications shall be limited to

- CHECK ONE:** 200 words
 400 words (double the cost)

The candidate is responsible for paying the cost of publishing the Candidate's Statement of Qualifications in the Voter's Information Pamphlet at the time of filing his/her statement.

- CHECK ONE:** YES
 NO The District/City will pay the cost of publishing the Candidate's Statement of Qualifications.

(4) Tie votes for City and District elections are resolved by lot according to Elections Code §15651 and §10551. In lieu of resolving a tie vote by lot the District/City may resolve a tie vote by the conduct of a special runoff election, pursuant to §15651 (b). A special runoff election shall be held only if the legislative body adopts the provisions of this code prior to the conduct of the election. If a legislative body decides to call a special runoff election in the event of a tie vote, all future elections conducted by that body shall be resolved by the conduct of a special runoff election, unless the legislative body later repeals the authority for the conduct of a special runoff election.

To conduct a tie vote by special runoff election for this election and all future elections, check here.

(5) Date of last map change: March 14, 2014. If necessary, who should we contact from your jurisdiction to come to our office at 1370 B South Main St, in Salinas, to review the map on file to confirm the district boundaries and trustee areas (if any)?

RE: Replacement of Three Manholes along Highway I in Moss Landing

RECOMMENDATION:

Award West Valley Construction work to replace manholes #27, 28 and 29, not to exceed amount of \$22,000

SUMMARY:

While there are twelve manholes in the Moss Landing system that have serious degradation of the internal walls due to sulfide exposure; manholes # 27, 28 , 29 and 30 have the most serious degradation of the internal walls and are in eminent state of failure.

I had requested quotes from three respected and qualified contractors to bring manholes #27, 28, 29 and 30 up to standard. Upon further review and inspection, I found that the structural integrity of manhole #30 was such that its replacement could be deferred until such time as we award a contract to recoat the remaining deficient manholes in the near future.

The following quotes below were submitted to the District to replace the manholes.

- West Valley Construction.....\$27,980 for four and \$20,985 for three
- Johnson & Company.....\$41,173 for four and \$30,880 for three
- Don Chapin Company.....\$47,800 for four and \$35,850 for three

Project Name: City Of Castroville Sewer Manholes	Bid Number:
Project Location: Castroville, Castroville, CA	Bid Date: 3/11/2015

West Valley Construction Co., Inc. is pleased to offer the following quotation for the above referenced project. Further clarification regarding supply and/or installation of Labor, equipment and materials is contained herein.

Item #	Item Description	Estimated Quantity	Unit	Unit Price	Total Price
1	Replace Sewer Manhole	4.00	EACH	\$6,995.00	\$27,980.00
Total Bid Price:					<u>\$27,980.00</u>

Notes:

- Proposal includes replacing 4 sewer manholes for the City of Castroville and installing a concrete apron around each manhole. All 4 manholes priced in dirt locations and to be backfilled with native material.
- All bond, inspection and permit fees are excluded from this quotation.
- Any additional cost incurred to West Valley Construction Company Inc. due to changes in engineering and/or specifications shall be agreed upon and invoiced accordingly.
- Work shall not proceed before all preliminary notice information and any Contractual Agreement has been furnished, agreed upon and endorsed between parties.
- This proposal is subject to revision upon review of proposed Contract Agreement and Insurance requirements for said installation.
- This proposal is to remain valid for 30 calendar days.
- In the event of any conflict between Terms and Conditions contained within any future Agreement, and those contained within this quotation, this quotation shall be in control and shall be hereto attached to said agreement as "Exhibit A".
- We shall not proceed with said installation until a formal Agreement has been entered into by West Valley Construction Co., Inc. and Owner or Contractor
- **General** - This Purchase Order constitutes the offer of West Valley Construction Company, Inc. ("Seller"). It becomes a binding contract when accepted by either acknowledgement or performance. THIS PURCHASE ORDER MAY ONLY BE ACCEPTED ON THESE TERMS AND CONDITIONS. ADDITIONAL OR DIFFERING TERMS, WHETHER IN AN ACKNOWLEDGMENT, INVOICE OR OTHER DOCUMENT, SHALL NOT BECOME PART OF THIS PURCHASE ORDER UNLESS AGREED TO IN WRITING BY BUYER.
- **Payment** - Buyer will pay Seller for the satisfactory performance of the work under this Purchase Order. Payment will be made within thirty (30) days from the invoice date. Seller does not offer any prompt payment discounts. Any past due payments are subject to late fees of 2% per month. Seller reserves the right to suspend performance or terminate the Agreement in the event any sums owed are not paid when due.
- **Insurance** - Seller will purchase and maintain general liability and worker's compensation insurance. Seller will provide a Certificate of Insurance identifying Buyer as an additional insured.
- **Taxes** - Unless otherwise specified, the purchase price includes all applicable taxes.
- **Delivery/Shipping/Risk of Loss** - Time is of the essence. Goods shall be shipped according to shipping instructions provided by Buyer or, if none, by the best route and mode of transportation. Unless otherwise agreed by Buyer in writing, all goods shall be packed, packaged, marked and otherwise prepared for shipment in a manner which is in accordance with good commercial practice, acceptable to common carriers and adequate to insure safe arrival of the goods at the named destination. Seller shall, irrespective of any FOB point provided, bear all risks, damage or destruction to the goods until final acceptance by Buyer at the delivery destination. Seller shall be liable for any cost, loss or liability (including any cost, loss or liability resulting from delay in receipt of shipments) incurred by or for the account of Buyer as a result of Seller's failure to comply with this paragraph.
- **Specifications/Changes** - All goods or services ordered will strictly comply with the current specifications therefore. Buyer may make changes in the specifications, delivery date, quantity or shipping instructions by written notice to Seller. Seller will access any impacts of such changes and inform the Buyer in writing within five (5) working days. In such event, the purchase price and time of performance shall be equitably adjusted.
- **Warranty** - Seller expressly represents and warrants that the goods or services covered by this order will conform to the specifications, drawings or descriptions furnished by Buyer and will be free from defects, including in labor and materials, for a period of one (1) year following acceptance. Such representations and warranties inure to the benefit of Buyer and its customers. Seller makes no warranty of fitness or merchantability.
- **Inspection/Acceptance** - Buyer and its authorized representatives and agents, shall be permitted to inspect all work. The Buyer shall have access to the work premises at all times. When the work is substantially complete, the Seller will notify the Buyer the work is ready for final inspection and, if required, testing. After final inspection has been completed, Buyer will provide a report (punch list) listing all deficiencies found. Seller shall immediately make the required correction to remove deficiencies and have the work reinspected. If there are no deficiencies or the deficiencies have been corrected, the work will be deemed accepted.

**RE: Remove and Replace Sewer Manholes
Hwy 1 – Moss Landing**

Dear Paul,

As per your request, the Don Chapin Company is pleased to provide a cost proposal for the above mentioned project. This proposal is based on a site inspection we had together and our sub-sequent conversation. Your proposal is as follows:

Remove and Replace Sewer Manholes

- 1) Set up and remove sewer by-pass as needed – 1 LS
- 2) Excavate, demo and remove sewer manholes – 4 EA
- 3) Off haul all debris as required – 1 LS
- 4) Install new sewer manholes with T-lock lining – 4 EA
- 5) Grout and finish all manholes – 1 LS
- 6) Install T-lock sealing strips to all manholes as required – 1 LS
- 7) Backfill and compact all manholes – 1 LS
- 8) Pour concrete collars and set to grade manhole frames and covers – 4 EA
- 9) Cleanup site as required – 1 LS

Remove and Replace Sewer Manholes Price - \$47,800.00

Exclusions and Qualifications

- 1) Permits, fees, bonds, staking, engineering, and testing are excluded.
- 2) Relocation or removal of existing utilities is excluded.
- 3) Any Cal-trans permits are not figured in this estimate.
- 4) Traffic control is not included if required.
- 5) Any drop connections would be extra if required.

Sincerely,

Greg J Runnalls
Estimator – Don Chapin Co.

GENERAL MANAGER'S REPORT

APRIL 21, 2015

❖ Regulatory Compliance

- ❑ No coliform violations (all routine samples negative) for March 2015
- ❑ Received documentation requiring annual water extractions and distributions of water sales from MCWRA, SWRCB (waiting for DWR)
- ❑ Submitted water quality reports to 7 large Water system customers
- ❑ Preparing CDPH Well permit for new well #5
- ❑ Preparing DWR Well permit for new well #5
- ❑ Preparing MCWRA Well permit for new well #5
- ❑ Regulatory documentation for CCSD sewer jetting activities
- ❑ Submitted California Integrated Water Quality "No spill" report for CCSD and Moss Landing for March 2015
- ❑ Regulatory documentation for MLCSD sewer jetting activities
- ❑ Regulatory documentation for CCSD sewer jetting activities

❖ Current Projects

- ❑ MLCSD Operations, see report in Board packet
- ❑ Permit new Well 5 (formerly Well 2B) including CEQA documentation
- ❑ Address Moss Landing sewer allocation plan
- ❑ Update sewer ordinances for CCSD and Moss Landing- Sept-2014
- ❑ Investigate blockage on Castroville Blvd sewer siphon
- ❑ Sewer cleaning, repair, video and maintenance program for CCSD
- ❑ Assist NCP&RD with proposed tax measure – committee formed
- ❑ Painting Overpass abutments with Murals (NCP&RD)
Awaiting Caltrans approval,

❖ Completed Projects

- ❑ 4 Street light out- reported to PG&E
- ❑ Repaired 1 laterals on Geil street
- ❑ Replaced blinds in office
- ❑ Submitted IRWMP Grant application for \$5,000,000- Paul Greenway
- ❑ Smoke tested for cross connection on Struve Rd in Moss Landing
- ❑ Submitted sewer connection fee calculation to Harbor Master for new Restaurant in North Harbor
- ❑ Installed well# 3 pump and motor- under full warrantee
- ❑ Installed booster #2 @ Well site 2
- ❑ Pulled booster #3 @ Well site 2 for seal and impeller repair/replacement
- ❑ Received quotes for 4 manhole replacements along Hwy 1 in Moss Landing

❖ Upcoming Projects

- ❑ Well #3 replacement / rehab
- ❑ Need to install and calibrate new well level transducers @ Station 1 in Moss Landing on Struve Rd
- ❑ Replace 3 to 4 manholes in Moss Landing along Hwy 1
- ❑ Consider rate study for new well
- ❑ Distribute RFP for Design /Build for Well #5 treatment system
- ❑ Meet with Judy Burditt and NMR&PD Ballot Committee re: tax measure for NCR&PD
- ❑ Resolve Moss Landing Sewer Allocation Plan
- ❑ Resolve Moss Landing MRWPCA seat on Board of directors
- ❑ Consider Desal opportunities
- ❑ Design Washington sewer bypass line

Meetings/Seminars (attended)

- ❑ Met with Judy Burditt and NMR&PD Ballot Committee re: tax measure for NCR&PD
- ❑ Met with Paul Greenway and Karen McBride with RCAC re: grant opportunities for Castroville/Moss Landing sewer repairs and replacement
- ❑ Met with MCWRA General Manager to discuss Desal opportunities
- ❑ Met with Chief Orman, NMCDF, regarding water deficiencies in Moss Landing
- ❑ Met with MRWPCA for source water quality sampling
- ❑ Met with Bill Kocher Interim MCWD GM re: GSA formation
- ❑ Monterey County Sherriff's Citizens Advisory Group-Eric
- ❑ Special District Water Managers meeting
- ❑ GSA Meeting discussion at MC Board of Supervisors
- ❑ Met with Supervisor Phillips regarding GSA and Drought measures
- ❑ Inter Agency Drought task force
- ❑ MBWWA Distribution Training certification in Watsonville-Davin & Miguel
- ❑ Moss Landing Bike path planning and installation meeting in Moss Landing
- ❑ Weekly Rotary meeting

❖ Meetings/Seminars (upcoming)

- ❑ Redevelopment Oversight Committee- Ron
- ❑ Cross connection control specialist training in Marina-Eric & Roberto
- ❑ Monterey County Sherriff's Citizens Advisory Group-Eric
- ❑ CWEA Conference in San Diego –Collection System Management-Eric
- ❑ NMR&PD Ballot Committee re: tax measure for NCR&PD
- ❑ MRWPCA representation for Castroville & Moss Landing systems
- ❑ Special District Water Managers Meeting
- ❑ Water District Managers meeting
- ❑ Special District Managers meeting
- ❑ Meeting with Moss Landing Chamber re: undergrounding project
- ❑ MRWPCA meetings - Ron
- ❑ Weekly and monthly Rotary meetings
- ❑ TAMC HWY 156 Citizens Advisory Group (CAG)

❖ Improvements/Ideas/Suggestions

- ❑ Attain SDRMA District Transparency Certificate of Excellence
- ❑ Consider Tony Akel to do Sewer master plan for Moss Landing
- ❑ Have office interior repainted
- ❑ Select areas for Saddle and lateral replacement program

MARCH 2015

Million Gallons

CASTROVILLE COMMUNITY SERVICES DISTRICT

OPERATIONS REPORT

Emergency calls for the month of March 2015:

- a) Station 2 pump failure alarm.

Maintenance:

- a) Continue to exercise valves in the distribution system.
- b) Continue to flush the fire hydrants (100% complete).
- c) Run the stand-by engines at the water plant sites bi-weekly.
- d) Run the stand-by engines at the sewer lift station weekly.
- e) Documented/covered graffiti.
- f) Fixed leaking booster pump 2 at Site 2.
- g) Cleaned storm drains.
- h) Jetted sewer mains.
- i) Jetted storm drains.
- j) Attended asbestos class.
- k) Pulled pump 3 at Site 2.
- l) Investigated road damage on Main St.
- m) Assisted volunteer fire hydrant painters.
- n) Exercised valves at well Site 2 and 4.
- o) Put Well Site 3 back online/new motor.
- p) Scraped Moro Cojo/Seagarden/Via Linda lift stations.
- q) Vactor Station 1.
- r) Sent in/picked up Chevy for repairs.
- s) Pulled/replaced transducer at Station 1.
- t) New contacts at Site 3.

Work Orders:

- | | |
|---------------------------------|----------------------------------|
| a) 48 Hour notices - 45 | g) Turn On Service - 5 |
| b) Clear box - 0 | h) Padlock Service - 3 |
| c) Final bill – read meter - 13 | i) Toilet Rebate inspection - 0 |
| d) Investigate - 3 | j) Reconnection - 1 |
| e) Miscellaneous - 0 | k) Shut Off - 1 |
| f) Install / Change Meter - 9 | l) TOTAL WORK ORDERS - 80 |
